ZEN DRIVER APTITUDE TESTING SYSTEM (ZEN DATS)

Zen Driver Aptitude Testing System (Zen DATS) tests psychomotor functions to proactively identify faults leading to accidents.

The Zen DATS is scientifically designed and tested.

Improve safety by identifying faults not committed deliberately that cause accidents while handling automobiles and earth moving equipment.

To test novice drivers, trained drivers, earth moving equipment operators, special vehicle drivers of armed forces, airport equipment and cargo handlers, dockyard good handlers and any other type of operators of special vehicles.
