

ZEN SMALL ARMS TRAINING SIMULATOR (ZEN SATS™ SL)

Zen Small Arms Training Simulator SL (Zen SATS™ SL) is a versatile firearms simulator designed to enhance the weapon handling and firing skills of security forces.

Highly deployable in small size units, isolated posts, high risk detachments, risk prone areas, independently deployed troops, troops on UN Missions, and any body of troops which is confined in an area for operational or tactical reasons.

SATS SL enables trainer-free and user defined exercises.

Compact, rugged and transportable system.

Enables firing in standing, kneeling or lying down positions.

www.zentechnologies.com

Recoil gives the firer the actual feel of firing.

User defined background scenarios and user controlled environmental factors such as light intensity and fog conditions.
