

# Project Management

To ensure that every stage of your journey is made as easy as possible, we follow a strict code of practice. We will assess what type and level of assistance you require to determine how best to meet your needs and designate one of the principals of the Goal Group as the engagement lead.

Using our knowledge of project and programme management, change management and risk we will devise an optimal solution product set and approach to achieve your desired outcome, on time and on budget. Good and effective communication is essential in any project and to guarantee this we seek your sign off as each stage is completed and prior to the next stage commencing. At the end of the project we will help you to review the benefits being realised and determine your future needs.

Each review gate is an opportunity to talk with you to check that you are happy with what we are developing or delivering, to ask whether anything has changed in your organisation and to check that our offering still meets your organisation's needs.

## Portfolio, Programme and Project Management consulting services:

- Organisational Portfolio, Programme and Project Management Maturity Assessment
- Development of organisational Portfolio, Programme or Project Management Methods
- Customisation and Implementation of the Project Solution Suite™
- Portfolio, Programme or Project Healthcheck

## Our consultants can:

- Advise** take the time to discover greater clarity
- Train** the most noble profession delivered with passion
- Educate** inside-out learning that enthuses the participants
- Mentor** learn from wisdom and profit from someone else's experience
- Speak** thought leading words that inspire great thinking in you and your people

Goal Group **up-skills** organisations and individuals utilising deep specialists across multiple business disciplines.

Whilst we can provide specialist consultants, our preference is to mentor, coach and train client staff or increase organisational efficiency.

## OUR GOAL IS YOUR SUCCESS
