

Training

The Goal Group has developed a range of innovative training programs and consulting services for organisations in the public and private sector. We are dedicated to helping our clients achieve outstanding results and we work with them to ensure that our training programs, assessment and consulting services meet their specific needs.

Goal offers a large selection of portfolio, programme and project management (P3M), business analysis and related courses delivered by experienced instructors. We are committed to providing value to our clients through training, and our team of instructors work hard to equip delegates with the knowledge and skills necessary for their success. Goal can offer training to corporate and government agencies in most Australian locations as well as Auckland and Wellington in New Zealand. Pricing is dependent on the course type, number of delegates and location.

Although Project Management is sometimes seen as inflexible, restrictive and stifling to innovation, we take a very different approach in the Goal Group. We believe that Project Management can empower and offer a new level of trust, confidence and professional integrity to every organisation.

Our Group Members include Accredited Training Organisations for the UK Crown's products PRINCE2®, MSP®, MoV® and P3O®. We have accredited thousands of delegates in these products with a success rate over 97%. Goal's mentoring from facilitators with real world experience is very highly regarded. Goal Group trainers are also Certified AIPM Assessors and conducts AIPM Certification at all levels.

The Goal Group is known for its cutting edge training, flexibility and innovation of approach. Competitors all over Australia use Goal Group products and services to produce their materials and/or deliver their Project Management training. Our lead trainer Geoff Rankins is a member of the Standards Australia Work Group which is contributing to the new International Standard ISO21500 Guide to Project Management, a member of the UK Cabinet Office's PRINCE2® 2009 Review Group, which reviewed the 2009 revision of PRINCE2® (and is acknowledge in the PRINCE2® handbook) and a member of the UK Cabinet Office's MSP® 2010 Review Group, which reviewed the 2011 revision of MSP® (and he will be acknowledged in the new edition of the MSP® handbook). Geoff helped to introduce MSP® into Australia and ran the first Australian in-house MSP® course.

Goal undertakes stringent screening and reference checks for our specialists and all must hold significant experience and qualifications in their specialisation. In addition, our consultants must be active in the professional association relevant to their area of expertise.

Why train with us?

We can offer:

- 10 years of training experience backed by 30 years of professional experience
- Excellent pre-course materials
- Value-adding course materials
- Almost 100% pass rates at Foundation level
- Almost 90% pass rates at Practitioner level

Goal Group up-skills organisations and individuals utilising deep specialists across multiple business disciplines.

Whilst we can provide specialist consultants, our preference is to mentor, coach and train client staff or increase organisational efficiency.

OUR GOAL IS YOUR SUCCESS
