

P30® Combined Foundation and Practitioner Course Outline

Project, Programme and Portfolio (P30®) is the latest guidance from OGC. A P30® model provides a decision enabling/delivery support structure for all change within an organisation.

This may be provided through a single permanent office which may exist under several different names e.g., Portfolio Office, Centre of Excellence, Enterprise or Corporate Programme Office. It may otherwise be provided through a linked set of offices (portfolio office, programme offices, project offices), both permanent (enabling/supporting business objectives and consistency of delivery) and temporary (enabling/supporting specific programmes and projects), providing a mix of central and localised services.

This is an examination based course which leads to P30® accreditation at Practitioner Level. The course equips delegates with a detailed knowledge of the P30® framework including guidance on models, roles, tools and techniques, and rejuvenation of existing P30s, then provides delegates with an opportunity to apply this knowledge.

Course Objectives

The Foundation course will enable delegates to:

- Articulate an overview of different ways the P30® can add value
- Recall and understand key reasons and benefits to get senior management approval for the P30®
- Identify the different P30® models and the need to adapt to the organisation's needs
- Plan the implementation of a P30®

The Practitioner course will enable delegates to:

- Demonstrate they have a full understanding of how to justify, build and manage a P30®
- Define the business case to get senior management approval for the P30®
- Build the right P30® model
- Understand how to use the tools and techniques described in P30® in running the P30® model and shaping the portfolio of programmes and projects
