

Assurance & Risk

The management of risk and implementation of robust corporate governance has become an increasingly important aspect of global business. While many companies are required by law, regulations or stakeholders to apply these processes and procedures, even more elect to do so as part of a successful business strategy. Our aim is to leverage expertise and knowledge to help organisations meet their governance, risk and assurance objectives.

Our services encompass a broad range of governance, risk and compliance activities including risk assessments, risk audits, compliance audits, regulatory controls, business continuity management, investigation services, legislative obligations, insurance, electronic and physical surveillance and counter-surveillance, WHS, fraud and security risk and other risk exposures.

Our focus is the establishment of long-term relationships with our clients, to provide them with a level of assistance and professional service to minimise their risk exposure, manage the up-side of risk and improve their operational efficiency in a cost effective manner. In effect, we seek to be a "trusted advisor" to our clients.

Services include:

- Operational risk reviews and strategic risk assessment services
- Development and implementation of enterprise-wide risk and compliance programs
- Compliance audits and compliance reviews
- Mediation, dispute investigation and resolution and mediation training
- Security and site surveys
- WHS audits, reviews, plan and program development
- Security and investigation services
- Insurance program reviews and tenders
- Critical infrastructure audits and reviews
- Business Continuity and Disaster Recover Planning and Crisis Management consultancy
- Fraud and corruption reviews/ethics, fraud and corruption training
