- Defence & Emergency Services
- Government & Public Departments
- Aviation & Transport
- Mining
- Manufacturing & Construction
- Energy & Utilities
- Healthcare & Not for Profit

## Defence Industry Security Program (DISP) Services:

The DISP, managed by the Defence Industry Security Office (DISO), supports Australian businesses to understand and meet their security obligations when engaging in Defence projects, contracts and tenders. Goal Group has membership within several security industry advisory groups and has helped businesses meet the expectations of Defence in a managed approach.

The relevance of DISP

- Helps you to get the right security requirements when delivering Defence contracts and tenders.
- Gives you access to Defence security advice and support services.
- Helps you better understand and manage security risks across your business.
- Provides confidence and assurance to Defence and other government entities (either Australian or foreign) when procuring goods and services from industry members.

## Risk Management

All businesses face uncertainty and risk, which can impact on their reputation, operational and financial performance. Our services include:

- Risk management systems ISO 31000
- Operational & project risk assessments
- Organisational standards & policy development
- Organisational risk profiling
- Threat & vulnerability assessments
- Cyber security risk management ISO 27001

## Cyber Risk Capabilities

All businesses face uncertainty and risk from cyber threats, which can impact on their reputation, operational and financial performance. Your business must be cyber resilient to work in the Defence sector.

To help you achieve this we offer:

- Cyber governance and leadership.
- Cyber threat modelling and risk analysis.
- Business intelligence strategies
- Organisational cyber policies and procedures.
- Cyber legislation and global frameworks.
- Cyber risk culture training and development.
- Lead auditor for ISO 27001 certification.
- Cyber risk contractor management.
- Cyber risk project management.
- Data and cyber research for industry.
- Cyber threat incident and investigation.
- Cyber crisis management and response.
- Cyber strategies, KPI's and planning.
- Intellectual cyber property.

## Work Health Safety

Work Health Safety is a specific offering to businesses, with a focus on:

- Safety consulting and onsite support
